About ELNEC:

The End-of-Life Nursing Education Consortium (ELNEC) Project is a national end-of-life educational program administered by City of Hope National Medical Center (COH) and the American Association of Colleges of Nursing (AACN) designed to enhance palliative care in nursing.

The ELNEC Project was originally funded by a grant from the Robert Wood Johnson Foundation with additional support from funding organizations.

Materials are copyrighted and are used with permission.

Further information about the ELNEC Project can be found at www.aacn.nche.edu/ELNEC

Train-the-Trainer

Approval has been obtained from the National ELNEC Project Office to present this course as a "Train the Trainer" Course. Participants are taught both the content of Palliative Care as well as teaching methods. In addition to acquiring new knowledge, the course will prepare staff nurses to act as role models when caring for palliative care & pain patients and act as resources for their units. It will also provide them with guidance on how to share their knowledge with their colleagues. As part of the "Train the Trainer" course additional educational strategies will be integrated throughout the course to provide participants with guidance on sharing their knowledge. All class participants will be provided materials & files of the ELNEC curriculum in both hard-copy and electronic forms. Class participants will be designated by the AACN ELNEC national office as "ELNEC Trainers"

Topics

- Pain Management
- Symptom Management
- Cultural Considerations
- Loss, Grief, Bereavement
- Communication
- Ethical Issues
- Chemotherapy at End-of-Life
- Artificial Nutrition
- Legal Aspects
- Final Hours
- Sharing your Knowledge

Themes throughout the Course

- The family as the unit of care.
- The important role of the nurse as advocate.
- The importance of culture.
- Attention to special populations such as the elderly, the poor, and the uninsured.
- Critical financial issues influence end-of-life care.
- Palliative care is essential across all life threatening illnesses and in cases of sudden death.
- Interdisciplinary care is essential for quality Palliative Care.
